

Eldhrímnir

A Woman's Restaurant...

Eldhrímnir is a new friendly family restaurant with both local and international dishes at great prices. It's located in Borgartún 14, next to the glass tower and close to the famous Höfði building, with a view to the sea and mount Esja.

Our Persian inspired menu consists of delicious local and exotic dishes. We have a combination of soups, light meals, meat and vegetarian dishes. Every day we have a new dish of the day from Elham, the food loving girl who masters the kitchen. Her ingenious sense for new combinations and varieties guarantee you a unique dining experience every day.

We have a sunny terrace behind the building which is the perfect place to grab a bite or sit down for a cup of coffee or a glass of beer on a good summer day. We have facilities for meetings and celebrations and offer a comfortable and relaxed atmosphere where you can enjoy food, drinks and conversations.

We have a good selection of light healthy meals on our menu such as pasta salads and pies. These dishes are offered every day if you don't have an appetite for a large meal. We try

to maintain the great low prices of our meals without ever compromising the quality or freshness of the ingredients.

Join us for a great meal at a great price.
